COMPANY OVERVIEW

Certa Craft is a diversified machine shop conveniently located just south of Indianapolis in Whiteland, IN. We specialize in Build to Print and CNC machining of hard metal production parts and fabricated assemblies. Since 1972, we have worked alongside manufacturers to help improve their turn times, product repeatability, and custom material handling needs.

We take great pride in the diversity of our services that allow us to fulfill the requirements of any industry. Industries we currently serve include Automotive, Rail, Military & Defense, Aerospace, Oil & Gas and many more.

CORE COMPETENCIES

Hard metal machining of low-mid volume production parts

Layup molds | Tooling | Fixturing | Prototypes

Mig/Tig welding fabrication & assembly services

3 CNC Mills accommodating parts up to 50 x 24" and 1700 lbs.

4 CNC Lathes accommodating parts with diameters from 1/8" up to 22" & lengths up to 60"

Live Tooling | 5 Axis for complex work & shorter lead time

NIST SP800-171 Cyber Security Compliant

SUCCESS PROJECTS

Target & actuator components for military training

Military combat simulation components and accessories

Layup molds & tooling for composite part manufacturing of UAV

Machined production parts for UAV

Custom material handling solutions for Auto & Industrial Equipment

Prototype parts for engine manufacturer in aerospace & defense industry
